

User Manual

Where Imagination Meets Reality

Model: C58

Please read this manual carefully before using the projector.

Important Safety Considerations

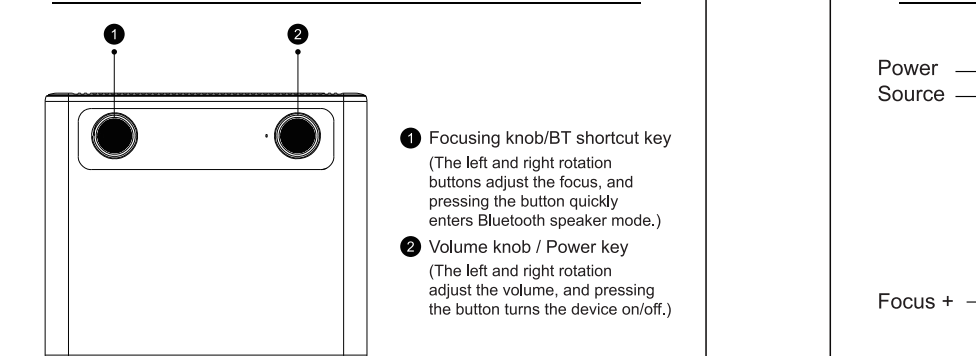

Attentions:
Thank you for purchasing this series of video projectors. Please read through this User's manual for proper use of this product.

Friendly Reminder:

- Do not look directly into the lens while the projector is running, as strong light may damage your eyes.
- Do not block the air outlet to prevent the projector from cooling down because internal electronics are damaged.
- Keep the projector and accessories out of the reach of children.
- Please make sure that the working environment of the projector is dry and ventilated.
- To prevent electric shock, please keep the projector out of the rain and away from moisture. It is recommended to switch off the projector after it has run for 6 hours non-stop.
- Do not press hard on the projector, as it may damage the product.
- Do not throw, hit, or shake the projector to avoid damaging the circuit board.
- Any questions after receiving the projector, please contact us, we will quickly and correctly solve your problem within 24 hours and give you a satisfactory answer.

Function Overview

- Focus Lens
- IR
- 3.5 mm Port for Audio Output
- AV Port
- HDMI 1
- HDMI 2
- USB 1
- USB 2
- Power
- Camera & IR
- LAN

01

Function Overview

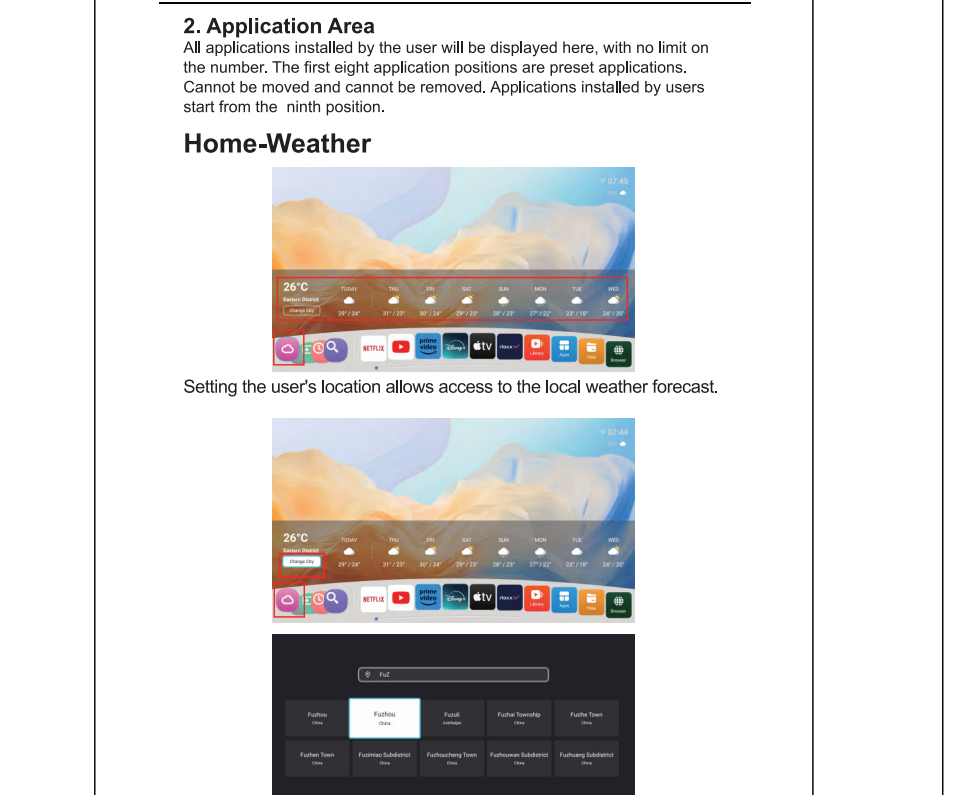

- Rubber Foot Mats
- Bottom Label
- Ceiling Mounting Holes for the projector, M6.
- Ceiling Mounting Holes for the projector, M4.

Tip: The projector ceiling mount bracket is not included. Additionally, when purchasing a projector mount, please ensure that the screw size and number of holes are compatible with the projector. We recommend purchasing a projector mount with four holes.

02

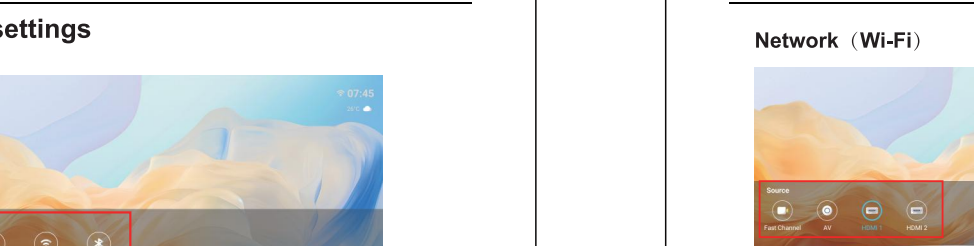

Remote Control Instructions

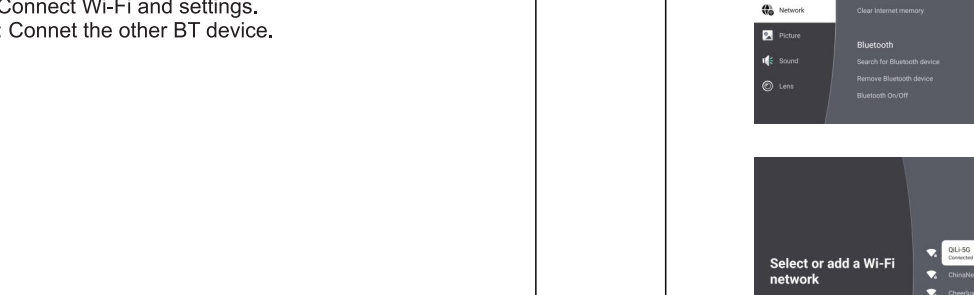

Note: Please install 2 AAA batteries (not included) into the remote control before use.

03

Operating Instructions

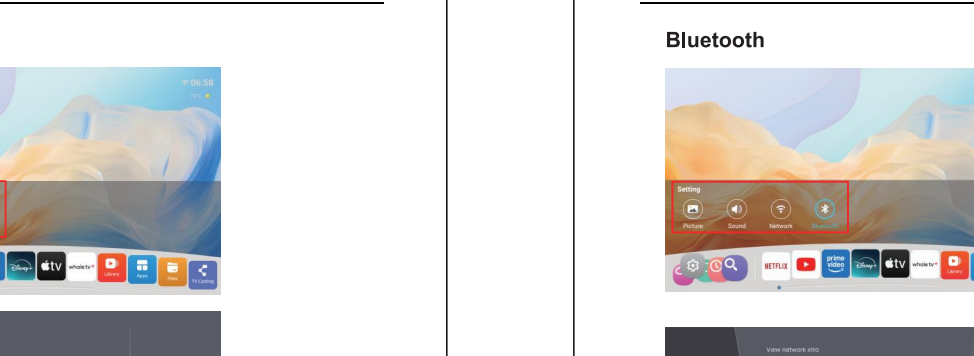

Power On/Off
Connect the power adapter to an outlet.
Power on: When the power cord is properly connected, you can press the power button on the device or remote control to turn it on.
Standby mode: Press the power button to enter standby mode in use.
Power off: Press the power button for 3 seconds to shut down.

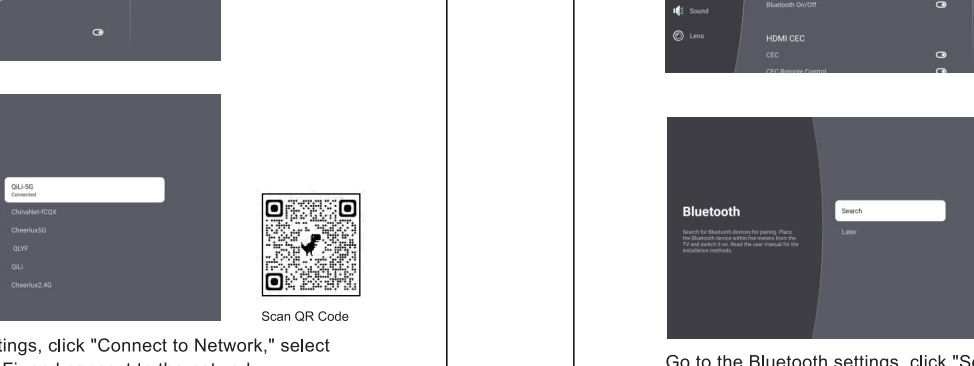

- 1. Quick Access**
 - Weather: By default, the climate and temperature of the current city on the 7th this week are displayed. Change City can switch city display
 - Setting: Used for various functional debugging settings.
 - Source: Data source, used to connect with the data source.
 - Recently viewed: Record what users watch and use the App.
 - Search: global search function.

04

Operating Instructions

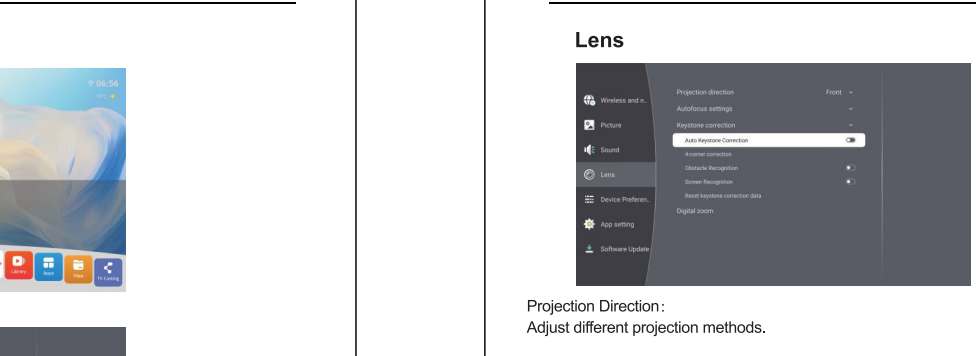

Home-Weather
Setting the user's location allows access to the local weather forecast.

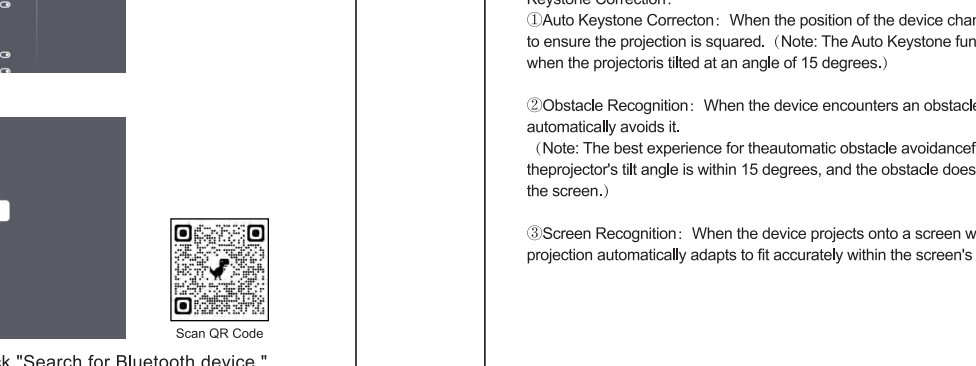

Enter the city you want to set, and once selected correctly, you will receive the weather forecast for that city.

05

Operating Instructions

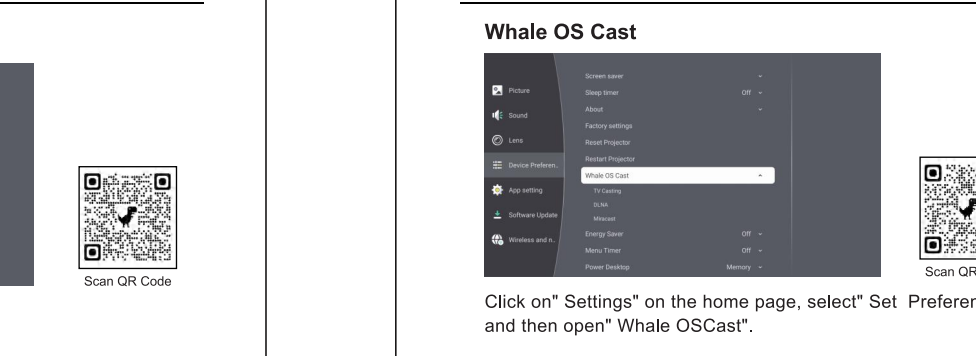

Home-settings
Picture: Image settings
Sound: Connect Wi-Fi and settings.
Bluetooth: Connet the other BT device.

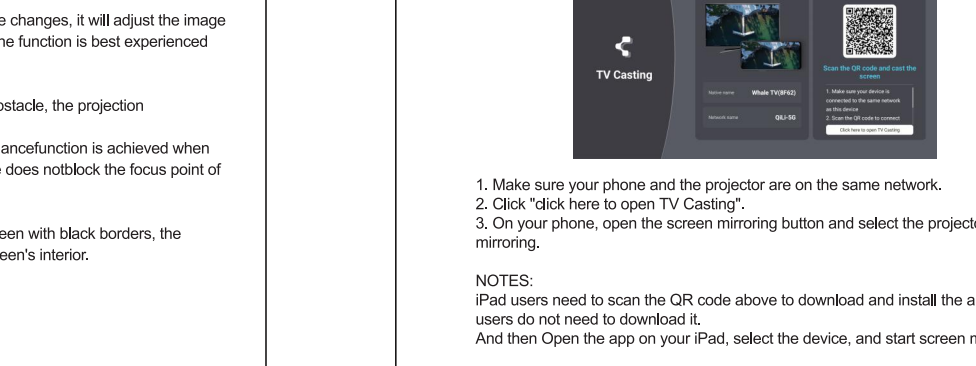

Go to the network settings, click "Connect to Network," select the corresponding Wi-Fi, and connect to the network.

06

Operating Instructions

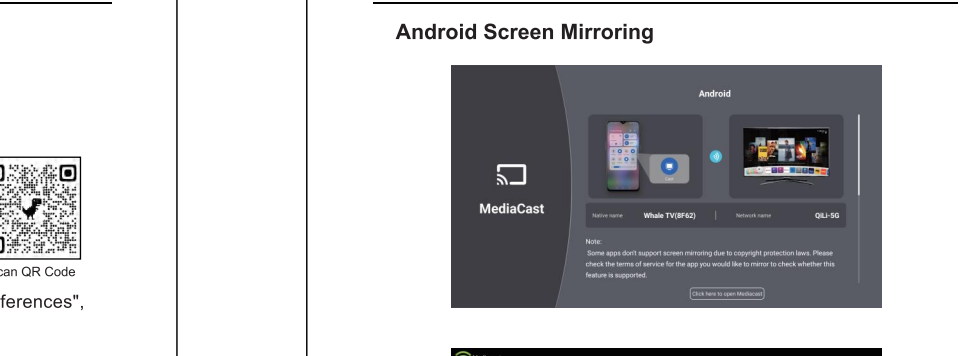

Network (Wi-Fi)
Go to the network settings, click "Connect to Network," select the corresponding Wi-Fi, and connect to the network.

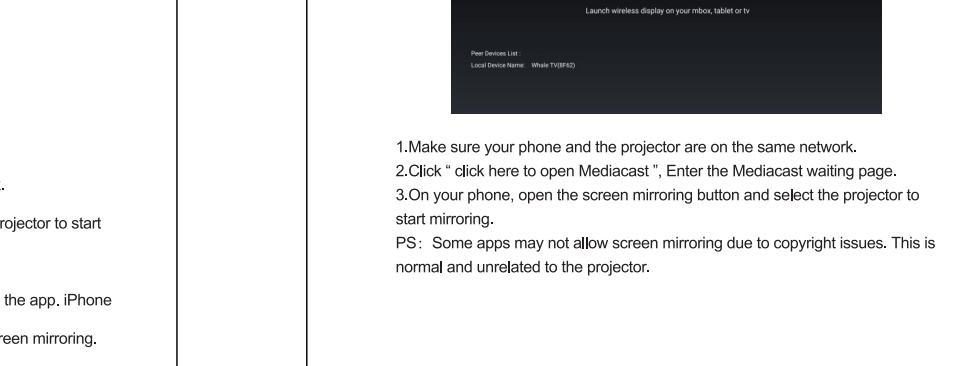

Go to the Bluetooth settings, click "Search for Bluetooth device," search for Bluetooth devices, and connect to the device.

07

Operating Instructions

Bluetooth
Go to the Bluetooth settings, click "Search for Bluetooth device," search for Bluetooth devices, and connect to the device.

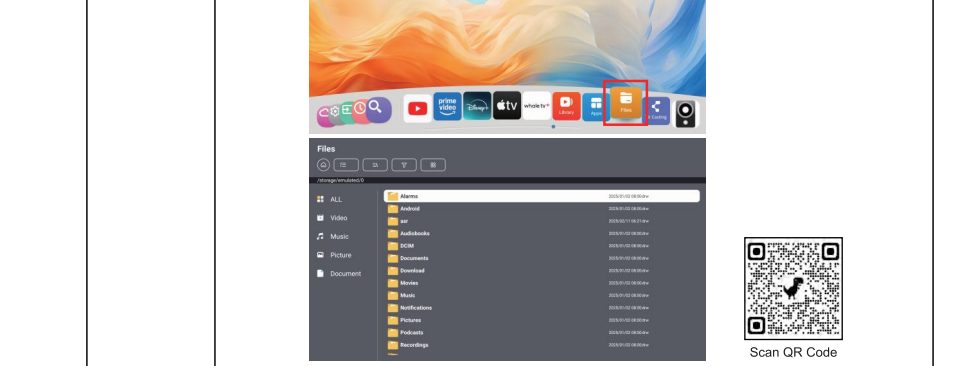

Go to the Bluetooth settings, click "Search for Bluetooth device," search for Bluetooth devices, and connect to the device.

08

Operating Instructions

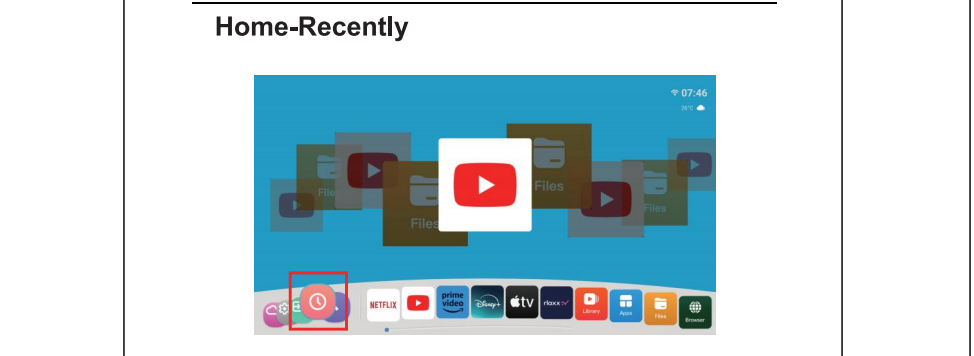

Lens
Projection Direction:
Adjust different projection methods.
Autofocus Settings:
The projector will enter auto focus mode. The projector can automatically adjust for a clear image. After completing auto focus but the image is still unclear, you can press "F+/-" for electronic focus to make the image clear.
Keystone Correction:
1. Auto Keystone Correction: When the position of the device changes, it will adjust the image to ensure the projection is squared. (Note: The Auto Keystone function is best experienced when the projector is tilted at an angle of 15 degrees.)
2. Obstacle Recognition: When the device encounters an obstacle, the projection automatically avoids it. (Note: The best experience for the automatic obstacle avoidance function is achieved when the projector's tilt angle is within 15 degrees, and the obstacle does not block the focus point of the screen.)
3. Screen Recognition: When the device projects onto a screen with black borders, the projection automatically adapts to fit accurately within the screen's interior.

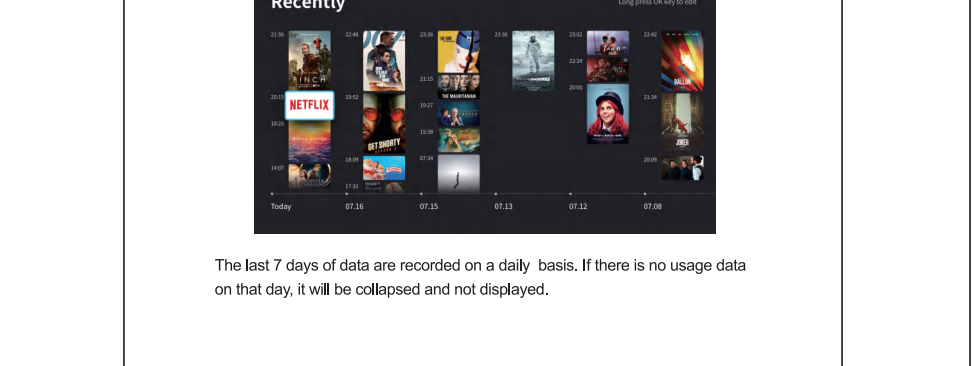

1. Make sure your phone and the projector are on the same network.
2. Click "click here to open TV Casting". Enter the MediaCast waiting page.
3. On your phone, open the screen mirroring button and select the projector to start mirroring.
PS: Some apps may not allow screen mirroring due to copyright issues. This is normal and unrelated to the projector.

09

Operating Instructions

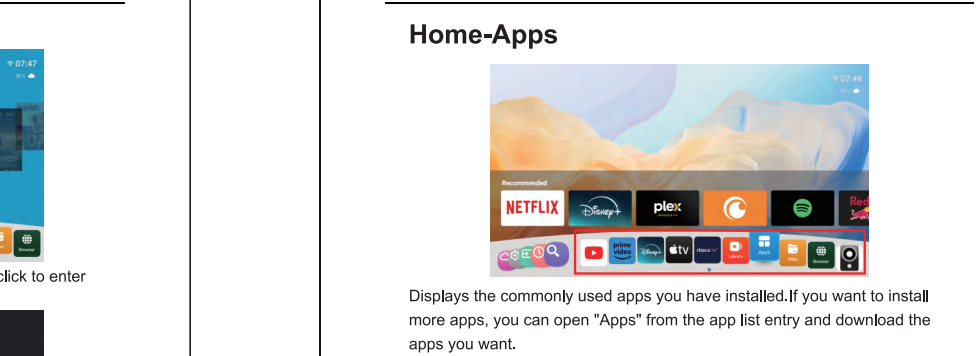

Whale OS Cast
Click on "Settings" on the home page, select "Set Preferences", and then open "Whale OSCast".

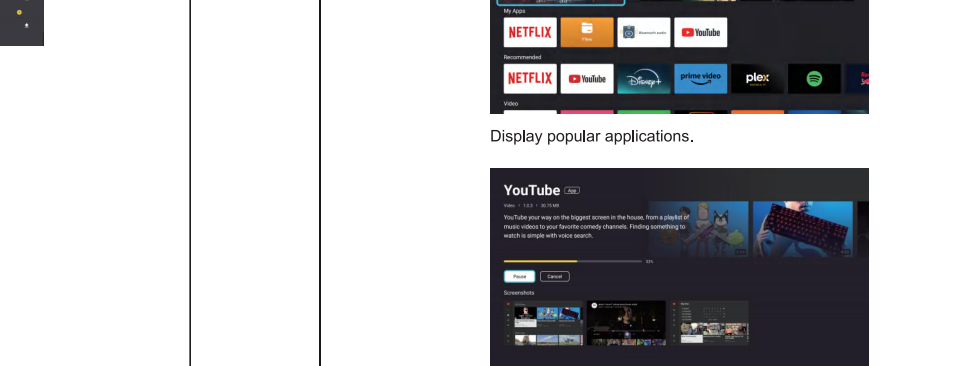

1. Make sure your phone and the projector are on the same network.
2. Click "click here to open TV Casting". Enter the MediaCast waiting page.
3. On your phone, open the screen mirroring button and select the projector to start mirroring.
PS: Some apps may not allow screen mirroring due to copyright issues. This is normal and unrelated to the projector.

10

Operating Instructions

Android Screen Mirroring
1. Make sure your phone and the projector are on the same network.
2. Click "click here to open TV Casting". Enter the MediaCast waiting page.
3. On your phone, open the screen mirroring button and select the projector to start mirroring.
PS: Some apps may not allow screen mirroring due to copyright issues. This is normal and unrelated to the projector.
